

Visiting IBD Observership Program

This competitive program offers GI fellows the opportunity to accelerate their career development and gain practical experience by participating in the clinical operations of a specialty IBD center.

Program-related expenses will be covered by the Foundation.

Who should apply?

- Candidates must be enrolled in an **accredited fellowship training program** within the U.S.
- Candidates should express a **specific interest in IBD**, such as patient care, a sub-specialty, or the pursuit of a career in IBD academics.

Supported by
educational grants from:

Johnson & Johnson

Space is limited! Apply by **February 20, 2026**.
